Wish your home came with instructions?

Today’s Homeowner delivers what you need to know.

**HEALTHY HOME**
People spend 90% of their time indoors during winter. Tackle these chores to ensure healthy air and water quality throughout the season.

- Insulate exposed water lines and hose bibs.
- Thoroughly clean, oil and prepare snowblower for winter.
- Gather tools and supplies for removing snow and ice from walkways and driveways.
- Clean all baseboard heaters.
- Clean range hood filter.

**SAFETY**
Home accidents increase during cold and icy winters. Having these supplies and tools on hand will help prevent the risk of slips & falls.

- Inspect washing machine hoses for leaks or damage. Replace if necessary.
- Set ceiling fans to rotate clockwise and circulate warm air during chilly months to keep your family and guests comfortable without bumping up the thermostat.

**AVOID WATER DAMAGE**
Water damage from leaks and frozen pipes is the second leading cause of loss for homeowners. Complete these tasks to protect your home.

- Change water and icemaker filters on the refrigerator.
- Change heating system filters.

**COMFORT**
Use ceiling fans to circulate warm air during chilly months to keep your family and guests comfortable without bumping up the thermostat.

**BE PREPARED**
Power outages from icy conditions are a common occurrence. Tune up your generator to keep your family comfortable when Old Man Winter strikes.

- Prepare portable or standby generator.
